BIS - SOCIAL INNOVATION BANK

BUILDING CHANGE

BIS - Social Innovation Bank was launched on April 30th 2013 by the *Santa Casa da Misericórdia de Lisboa*, one of the most relevant and oldest private Charities in Portugal.

BIS's mission and purpose is to promote social innovation in Portugal by stimulating society to actively participate and collaborate in the configuration of innovative and sustainable solutions for societal problems, needs or challenges that are of general interest.

BIS is an informal collaborative platform that aggregates 27 of the most relevant Portuguese public, private and social Institutions and invests their assets (knowledge, experience, technical skills, financial resources, infrastructures, training, networks, a.o.) in the organization and development of initiatives, programmes and activities aimed at:

- Boosting social creativity and social entrepreneurship
- Developing social experimentation
- Giving support to innovative and sustainable social business through social investment funds and
- Promoting social innovation in the country through the development of BIS territorial platforms gathering local public, private and social Institutions, based on innovative and collaborative forms of governance.
